

* Size Trademarks including JUMBO , SMALL , PETIT , MICRO , MINI...

[Distinctiveness]

There are not so many things to which the adjective that shows the size is applied alone. The registration of the size is basically difficult. Because it is a word that shows the shape of the goods, distinctiveness is lacked.

[Similarity]

Since the word that shows the size is excluded and judged in the judgment of the similarity, registration is difficult at the examination stage, and a lot of registration is admitted in the second Trial stage.

(1) JUMBO/GRAND/BIG

Distinctiveness (: Distinctive X : Non-distinctive)
